WHAT IS KENYA MINING FORUM?

The second edition of the annual Kenya Mining Forum, hosted by the Ministry of Mining of Mines and in partnership with the Kenya Chamber of Mines will open doors to exclusive networking opportunities for mining operators, finance houses and investors as well as technology solution providers who are seeking a new market and new clients for mineral exploration and extraction.

Welcome to the annual meeting place for every mining stakeholder in Kenya and globally seen as THE vehicle for driving the industry forward and ensuring that the transformation of the industry happens.

For the past three years, Kenya has been one of the most dynamic emerging markets in the mining field and significant efforts have been made to develop the industry. These include the launch of new Mining Act in May 2016 and the start of a nationwide geophysical airborne survey in 2017. The Ministry of Mines is actively supporting the creation of a business climate accommodating the growth of this promising industry.

Whether you are new to the Kenyan mining sector or a seasoned professional, this week of activities will encompass all the "need to know" pieces to make sure your valuable time is well spent: 2-day strategic conference, international business to business exhibition, investment breakfast, free technical workshops, women in mining breakfast, networking sessions, an exclusive site visit and unlimited business connections.

We hope you will be joining us in bringing Kenya into the international mining arena and supporting the country's strong movement towards economic diversification!

See you all in Nairobi, Kenya!

OVERVIEW OF THE EVENT

STRATEGIC CONFERENCE

Providing insights into hot legal issues, commodity trends, productivity tools for your operations and address power supply shortages.

B2B INDOOR TRADE EXPO

Featuring leading technology and innovative services covering the value chain of the mining industry.

TECHNICAL WORKSHOPS

Upskill your team or learn to mine from A to Z with technical expertise and 'hands on' practices.

INVESTMENT BREAKFAST

Delivering all the indispensable information and identifying the "who is who" in the promising mining industry in Kenya.

WHY ATTEND?

Optimise your presence in an industry set to grow, Kenya being in the top 5 countries with rare earth deposits in the world.

Understand how the new government's plans on implementation of regulations and investment policies make Kenya a low-risk mining destination.

Meet and network with key role players in the Kenyan mining space from the private and public sectors including off-grid suppliers in a country where 67% of the power is generated from hydro.

Access available sources of finance to tap into the mining potential of Kenya which is estimated to be worth \$62 billion.

Share experiences and voice your perspectives to government on how to optimise the current production of metals such as titanium, gold and iron ore.

Align your investment with the government strategy to fully exploit full production for its world's top six deposits for Niobium and commercial deposits of coal recently discovered.
